

How to integrate **XRdoge** as Payment method in Wordpress

XRdoge Team

November 5, 2021

Abstract

In this short document the process of integrating **XRdoge** as Payment method into the CMS **Wordpress** using **WooCommerce** is being described.

Figure 1: XRdoge Payment Integration

1 Requirements

The following requirements are needed in order to achieve the goal.

1. **Wordpress** - You need to have a Website which is using Wordpress.
[How to install Wordpress](#)
2. **WooCommerce** - You need to install the Wordpress plugin WooCommerce. [How to install the WooCommerce Wordpress Plugin](#)

1.1 Installing the XRDoge Payment Plugin

After having installed **Wordpress** and the **WooCommerce** plugin you now must install the XRDoge Payment Plugin.

1. [Download the XRDoge Plugin here](#)
2. Login to your Wordpress site (usually accessible at <https://YOURDOMAIN/wp-admin>)
3. Go to **Plugins** and click on **Add New**.

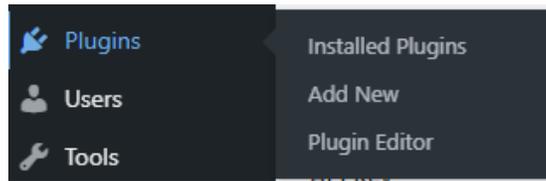

Figure 2: Plugins

4. Click on **Upload Plugin**

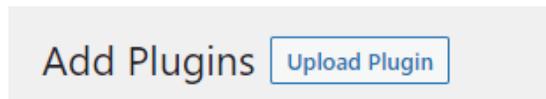

Figure 3: Add New

5. Select the **xumm-for-woocommerce-main-xrdoge.zip** file and click on **Install Now**

Figure 4: Upload Plugin

6. Now click on **Activate Plugin** to enable the plugin
7. Now go to **WooCommerce – Settings**

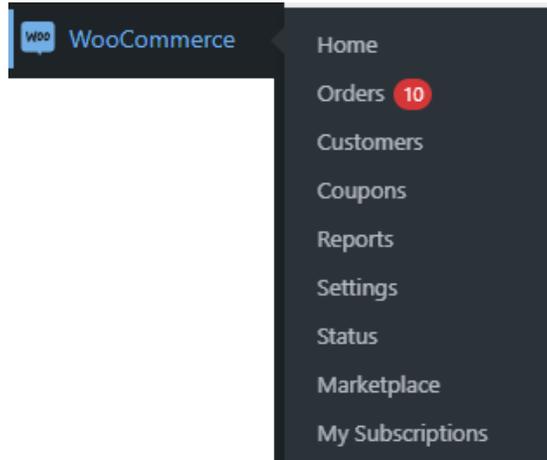

Figure 5: WooCommerce Settings

8. Select the Tab **Payments**

Figure 6: Payments

9. Enable **Accept XUMM payments**

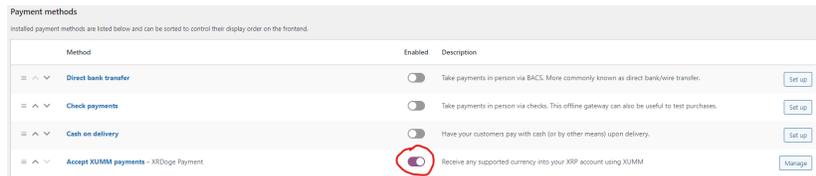

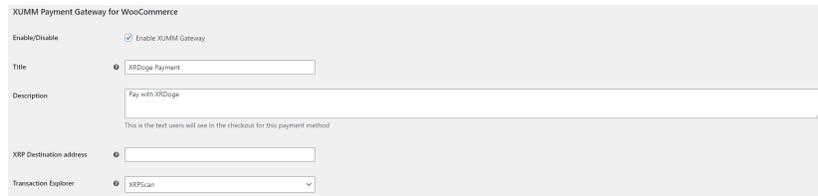

Figure 7: Enable

10. Afterwards click on **Manage**
11. Now enter **Title** and **Description**

XUMM Payment Gateway for WooCommerce

Enable/Disable Enable XUMM Gateway

Title

Description
This is the text users will see in the checkout for this payment method

XRP Destination address

Transaction Explorer

Figure 8: Title and Description

12. Set the destination address where the XRDoge payment shall be sent to
13. Go to <https://apps.xumm.dev/> and register
14. Create a new application

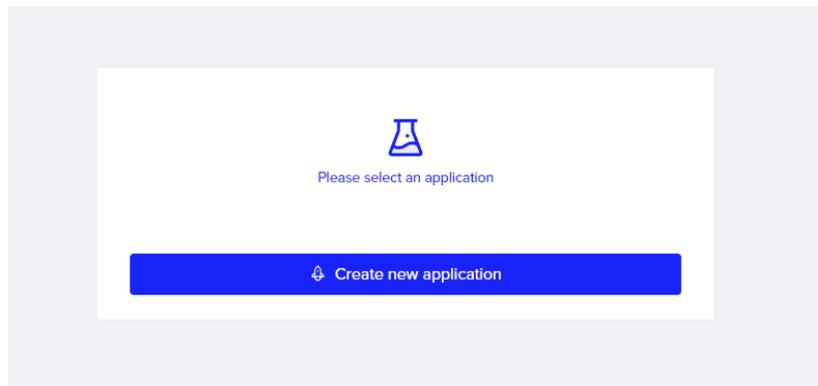

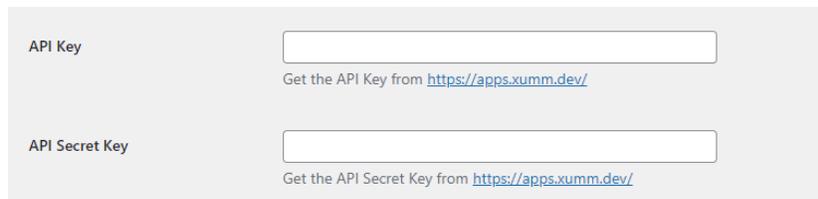

Figure 9: Create new Application

15. Set a **Application Name** and **Application Description** and create the application, afterwards copy the **API Key** and **API Secret Key** and paste them to the corresponding fields in the WooCommerce Settings.

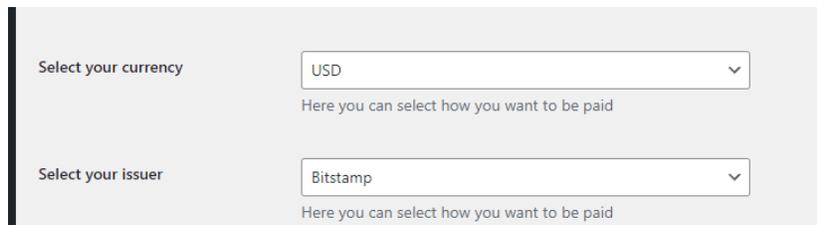

API Key
Get the API Key from <https://apps.xumm.dev/>

API Secret Key
Get the API Secret Key from <https://apps.xumm.dev/>

Figure 10: API Key

16. Select as currency **USD** from **Bitstamp**

The screenshot shows a configuration form with two sections. The first section is labeled "Select your currency" and contains a dropdown menu with "USD" selected. Below this dropdown is the text "Here you can select how you want to be paid". The second section is labeled "Select your issuer" and contains a dropdown menu with "Bitstamp" selected. Below this dropdown is the text "Here you can select how you want to be paid".
